# Places to enjoy various activities in Chiba

## Animals

Chiba Prefecture has one of the major farms in Japan and one of the major aquariums in Japan, as well as the zoo with the greatest number of elephants in Japan and popular lesser pandas. The following section introduces 4 popular spots where you can enjoy touching animals.

### Mother Farm

→ P50-S06

マザー牧場

Located on Mt. Kano, which offers a grand panoramic view of the mountains on Boso Peninsula, Tokyo Bay, and Mt. Fuji, Mother Farm is one of the biggest tourist ranches in the Kanto area. On the huge grounds of about 2.5 million square meters, seasonal flowers are beautifully blossoming and various animals, including alpacas, cows, sheep, horses, and goats, are available for visitors to play with and touch. There are lots of activities, including horse-back riding, zip line, bungee jumping, an amusement park, strawberry and blueberry picking, and hand-making experiences, providing an entertaining farm where both grownups and children can have fun.

### Ichihara Elephant Kingdom

市原ぞうの国

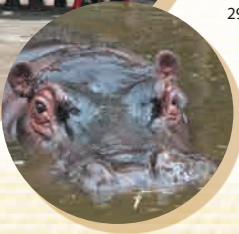

Located roughly in the center of Chiba Prefecture, this zoo has 12 elephants, which is the greatest number in Japan, along with about 90 kinds of animals, including capybaras and hippos. The popular "Elephant Show," where elephants perform difficult tasks, such as playing soccer and dancing, is offered almost every day. There are also various attractions, such as "Elephant Riding," where you can get on the back of an elephant, "Elephant Lift," where you can hang down from the nose of an elephant, and photo taking with a small elephant.

## Chiba Zoological Park

→ P27-B08

千葉市動物公園

This zoo is really wild, but in this wilderness, the red panda named Futa stands out, famed for standing upright. At “Keiyo Gakuin Lion School,” the only facility with lions, you can feel their power up close through the glass. The zoo is divided into several areas, including the “Steppe Zone,” the “Avian and Aquatic Zone,” and the “Monkey Zone”. “Fureai Dobutsu no Sato” offers a petting zoo area, and a horse-back riding corner, as well as a BBQ area, where you can enjoy grilling your meal with no advanced preparation needed.

## Kamogawa Sea World

→ P52-S09

鴨川シーワールド

Located in front of the Pacific Ocean, this is one of Japan's biggest aquariums, based on the concept of “encountering the ocean world.” Through the exhibitions based on recreated natural environments, including a stellar attraction featuring killer whales, the king of the ocean, a stunning performance of bottlenose dolphins and Pacific white-sided dolphins, and impressive performances of belugas and seals, you can see 11,000 animals of 800 kinds living in rivers and oceans. At “Tropical Island” with replicas of tropical coral atolls, you can enjoy walking around as if you are a diver in the ocean.

## Mt. Nokogiriyama & Nihon-ji Temple / Nokogiriyama Ropeway

Mt. Nokogiriyama is a 329.4-meter-high mountain. The mountain consists of tuff that was suitable for construction and it used to be a quarry from the Edo period. The shape of the exposed mountain surface took on a saw-toothed shape, giving it a name of "Nokogiri," which means "saw." The view from "Jigoku-nozoki," which is situated near the top of the mountain is both beautiful and thrilling. The slope on the south side of the mountain is the temple grounds. The temple, Nihon-ji was built by the Buddhist monk called Gyoki at the behest of Emperor Shomu about 1,300 years ago. You can visit the largest Buddha statue carved on a rock face with a height of 31 meters, Hyakushaku-Kannon statue, which might remind you of the Bamiyan Buddha and the 1,500 stone figures of Arhats. The ropeway in Mt. Nokogiriyama is the only ropeway in Chiba Prefecture.

# My getaway in Chiba ~ Minamiboso ~

## Mother Farm → P50-S06

The extensive and fascinating flower garden was full of vivid pink petunias in August. This place features various seasonal flowers including field mustard flowers, baby blue eyes and salvia. This charming farm also offers various events where you can interact with such farm animals as sheep, ostriches, horses and rabbits. The comical sheep show featuring 19 types of sheep is a must-see!

▲ The delicious rich milk soft serve is certainly worth a try!

▲ The gift shops feature various items—I especially recommend the cow-shaped milk sablé (biscuit).

## Country Farm Tokyo German Village → P49-S03

Designed for car access, this recreated German countryside is easy to get around! The flower garden features various seasonal flowers such as moss phlox, poppies, roses and sunflowers.

▲ Jumping and running around to your heart's content on the extensive lawn is an exhilarating experience!

Looking exactly like a German castle, Marktplatz houses restaurants and shops which offer Baumkuchen, sausages, beer directly imported from Germany, and the like.

▲ Seeing the carefree goats and pigs relaxing in the children's zoo will relieve your stress.

## Banya → P14

Savor fresh seafood at this locals' go-to spot filled with a lively and energetic ambiance.

## Umihotaru Parking Area → P49-S01

Featuring a breathtaking view from the observation deck and an extensive facility housing various restaurants, cafes, shops, foot baths and the like, this place will keep you busy all day long!

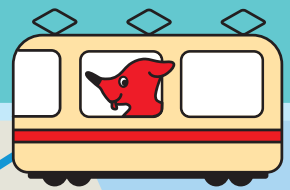

## Michi-no-Eki Hota (Roadside Station) → P63

This now defunct elementary school turned Michi no Eki (roadside station) houses an accommodation facility, restaurants and shops. Make sure you add the market in the school gym to your must-visit list!

## Japanese Garden Mihama-en

P.26 - B04

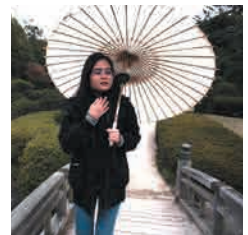

A place that highly recommended for foreigners. I learned lots of Japanese culture and it was very exciting. The tour guides was very friendly and know some of Malay words. They are very helpful in answering any question that I asked. Such a heaven place.

## Sawara

P.40

Boat riding was nice and comfortable to sit as there is kotatsu. Eventhough the boat looked old and traditional, the technology used in the boat was impressive. The couple who owned the boat was very friendly and helpful in explaining history of the place.

## SUGAHARA GLASSWORKS INC.

P.43 - N21

My first time experience of DIY my own glass was exciting and interesting. Sugahara staff has been very patient and helpful in guiding me throughout the process. The products here are of excellent craftsmanship, recommended for souvenir shopping too.

## Lunch at Banya

P.14

Banya's location is excellent, where we get to enjoy beautiful sea view from the platform near the restaurant. Food wise, the sashimi here is very premium in quality - thickly cut and fresh. Ideal location for fresh seafood since the owner-operator is a fisherman himself.

## Country Farm Tokyo German Village

P.49 - S03

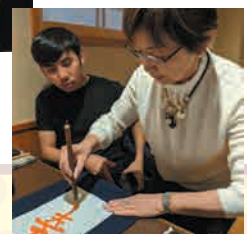

So beautiful! The lights, the atmosphere, everything, was just breathtaking.

## Sushi Ichizyu

P.08

To have the chance to learn and eat high class halal sushi is such a dream. From the kanji lesson to the quality of the sushi, everything was perfect!! I would definitely come back again when I get the chance.

## Yoshino (halal ramen)

Ramen was good. It comes with two flavours and have sambal. Really love it. Plus not far from Mihama-en.

## Nishi Chiba Mosque

Had a good time talking to local Muslims. Not many people know there is a mosque in this area.

## Cosplay Annex

P.37 - N04

I like the cosplay experience in Cosplay Annex. They give rent various type of cosplay from yukata, kimono, ninja etc. The atmosphere and surrounding is so traditional japan. I hope we can try to do some activities that day too.

## Naritasan Shinshoji Temple and autumn leaves at Naritasan Park

P.36 - N01

This place is very beautiful. I love this place when we start walking 1 KM to go to the temple, we can see a lot of Japanese old building with many souvenir shops around it. As we arrive at the temple gate, we need to climb stairs and we saw many well designed monuments and crafts. Then we learn some history about the temple from guide. Then we had some walk around Naritasan Park. The scenery was beautiful and we can see many autumn leaves even the winter already started.

## Kamogawa Sea World

P.52 - S09

I LOVE IT! A lot of shows but at the same time, I feel pityful for the dolphins and whales who do the performance. Maybe before and after each show they can show some footages on how Kamogawa Aquarium helped the dolphins and whales or the environment. How they care for the whales and how the animals and their trainers have good relationship. My blog has a lot of western readers, they are more eco-minded so sometimes I post animal shows like this they will lecture me, hence I know what they are thinking. The ocean restaurant is superb. So Instagramable.

## Oyama Senmaida

P.08

Seasonal, good for pictures. Maybe can do a small experience on the higher ground of the rice field, like sushi making.
