Let's enjoy various types of trains in Chiba

Train Experience

In Chiba Prefecture, various trains are in service, including retro-flavored local trains, trains with a great view of beautiful blossoms, and a monorail to enjoy an aerial walk. We will introduce you the trains which will make your trip more fun and enjoyable!

Kominato Railway

小湊鉄道

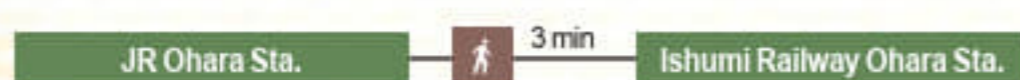

In Chiba, there are many spots to enjoy beautiful seasonal views. One of the most famous spots among those is the area along the Kominato Railway Line. Started in 1925, this non-electrified single-track line connects a total of 18 stations, from Goi Station, which is located about 20 minutes from JR Chiba Station, to Kazusa Nakano Station. The retro buildings over 100 years old, including a station building and an electricity plant, are still standing along the line, making us feel as if we are back in time in old Japan.

Isumi Railway

いすみ鉄道

Serving as one of the major local railway lines in Chiba Prefecture, Isumi Railway Line connects 14 stations from Ohara Station in Isumi City located in the south part of the Boso Peninsula, to Kazusa Nakano Station, where the line connects to the Kominato Railway Line. You can travel through the Boso Peninsula while enjoying a tranquil and idyllic landscape. From mid-February to late March, nanohana field mustard flowers, the designated flower of Chiba Prefecture, are fully blooming. Enjoy spring in Japan riding on a train running through the yellow carpet of beautiful blossoms!

Chiba Urban Monorail

千葉都市モノレール

Running through the tall buildings, this unique suspended monorail makes passengers feel as if they are flying in the sky. It runs for a total of 15.2 km, which is the world's longest distance for a suspended monorail. It has also been listed in the Guinness World Records in 2001. "URBAN FLYER 0-type," the new train car introduced in 2012, uses glass for part of the floor, further expanding a view of passengers. Get on a flying railway line and enjoy an aerial walk in the urban area.

Choshi Electric Rail Line

銚子電鉄

This small local railway line with a total length of 6.4 km has just celebrated its 100th anniversary. Get on a retro-flavored train at Choshi Station in the northeastern part of Chiba Prefecture, run through the urban area, and you will find a sea of cabbages outside the train window. Enjoy a 20-minutes one-way ride on the local line to Tokawa Station with a classic scenery of a fisher town. This railway line faced a risk of being abandoned several times but it was saved by its popular specialty snack "nure-sembei (wet rice crackers)." The unique station nicknames, such as Kaminokekurohae (which literally means "black hair growing) Station and Arigato Station, are also increasing the popularity of this line.

Wakashio Express

わかしお

A limited express connecting Tokyo Station, a gateway to Japan, and Awa-Kamogawa Station, one of the major holiday resorts in the Boso Peninsula in Chiba Prefecture, in about 2 hours. This train stops at some of the major stations, like Katsuura Station, which is located in the port town famous for a morning fair, and Awa-Kominato Station, which is the birthplace of the founder of Nichiren Sect, Nichiren Shonin, and has the head temple of the Nichiren Sect, Tanjo-ji Temple. You can enjoy various scenery along the way, such as the view of urban areas like Tokyo and Makuari New City, as well as the rich nature like beautiful blue ocean. Places to enjoy various activities in Chiba

Animals

Chiba Prefecture has one of the major farms in Japan and one of the major aquariums in Japan, as well as the zoo with the greatest number of elephants in Japan and popular lesser pandas. The following section introduces 5 popular spots where you can enjoy touching animals.

Mother Farm

→ P50-S06

マザー牧場

Located on Mt. Kano, which offers a grand panoramic view of the mountains on Boso Peninsula, Tokyo Bay, and Mt. Fuji, Mother Farm is one of the biggest tourist ranches in the Kanto area. On the huge grounds of about 2.5 million square meters, seasonal flowers are beautifully blossoming and various animals, including alpacas, cows, sheep, horses, and goats, are available for visitors to play with and touch. There are lots of activities, including horse-back riding, zip line, bungee jumping, an amusement park, strawberry and blueberry picking, and hand-making experiences, providing an entertaining farm where both grownups and children can have fun.

ICHIHARA ELEPHANT KINGDOM

市原ぞうの国

Located roughly in the center of Chiba Prefecture, this zoo has 12 elephants, which is the greatest number in Japan, along with about 90 kinds of animals, including capybaras and hippos. The popular "Elephant Show," where elephants perform difficult tasks, such as playing soccer and dancing, is offered almost every day. There are also various attractions, such as "Elephant Riding," where you can get on the back of an elephant, "Elephant Lift," where you can hang down from the nose of an elephant, and photo taking with a small elephant.

Chiba Zoological Park

千葉市動物公園

This zoo is really wild, but in this wilderness, the red panda named Futa stands out, famed for standing upright. At "Keiyo Gakuin Lion School," the only facility with lions, you can feel their power up close through the glass. The zoo is divided into several areas, including the "Steppe Zone," the "Avian and Aquatic Zone," and the "Monkey Zone." "Fureai Dobutsu no Sato" offers a petting zoo area, and a horse-back riding corner, as well as a BBQ area, where you can enjoy grilling your meal with no advanced preparation needed.

Kamogawa Sea World

→ P52-S09

鴨川シーワールド

In this place where the Pacific Ocean spreads out before your eyes, you can enjoy a wide variety of shows performed by killer whales, dolphins, sea lions, and belugas. In particular, the performances by killer whales with a size of over 5 meters are very powerful and make the audience cheer! The performances by dolphins and sea lions on the other hand are very charming and relaxing. Inside the pavilion, which is a recreated natural environment, 800 varieties and 11,000 examples of both marine and river animals are kept and it's a great place to learn as well. Around Kamogawa Sea World there are many Japanese style inns and resort facilities to make your stay here a high quality and relaxing one.

Mt. Nokogiri is a 329.4-meter-high mountain. The mountain consists of tuff that was suitable for construction and it used to be a quarry from the Edo period. The shape of the exposed mountain surface took on a saw-toothed shape, giving it a name of "Nokogiri," which means "saw." The view from "Jigoku-nozoki," which is situated near the top of the mountain is both beautiful and thrilling. The slope on the south side of the mountain is the temple grounds. The temple, Nihonji was built by the Buddhist monk called Gyoki at the behest of Emperor Shomu about 1,300 years ago. You can visit the largest Buddha statue carved on a rock face with a height of 31 meters, Hyakushaku-Kannon statue, which might remind you of the Bamiyan Buddha and the 1,500 stone figures of Arhats. Cherry Blossom Hunting in Chiba

Being just a stones-throw from Tokyo, Chiba is an excellent place to make day trips to from the capital during cherry blossom season. I really enjoyed exploring the region last year looking for new and interesting angles to photograph the areas Sakura trees. Around Otaki Castle and by Lake Kameyama are two great examples.

Mt. Nokogiri and Nihonji Temple

Nokogiriyama, also known as Mt. Nokogiri, is an interesting mountain with fabulous views. It's a fun day trip from Tokyo with a ropeway, great views, hiking, a dose of culture, history, and Japan's largest Buddha statue. The main attraction of the temple complex is a 31-meter-tall stone daibutsu twice the size of his Kamakura-counterpart. Being the healing Buddha, he holds a container of medicine in his hand and if you bathe in the radiance of the emerald contained in it, your illness will be healed. It is also a perfect spot to relax after or before the hike and have a picnic.

Katsuura Tantan ramen

As a lover of both spicy food and ramen, this dish in one of Chiba's main port towns really floats my boat. Many "Tantan ramen" shops dot the Katsuura area, and it's a favorite of fisherman and dock workers after a tough morning shift. It's a hearty ramen, with chili oil, onions, and ground meat, sure to invigorate you any hour of the day.

Hattori Hydrangea House

Of all Chiba's seasonal flowers, I like hydrangeas the best! The Hattori Hydrangea House in Mobara City is a grass-roots hydrangea field, with the resident family maintaining, improving, and growing the flower bushes year after year. Local vendors also come during the bloom to sell tasty fruits and local products. The melons in this area are particularly good!

Iinuma Honke Sake Brewery

For me, a trip to Japan wouldn't be complete without tasting some local sake! Iinuma Honke is a 300-year-old's sake brewery that offers a fascinating tour of its brewing process and historic buildings. After the tour, you can enjoy a sake tasting accompanied by seasonal cuisine in the former family residence.

Former Residence and Garden of Lord Hotta

Built in 1890, the former Hotta Residence is a traditional house that reveals the outstanding skills of Japanese craftsmen. I enjoyed walking on the tatami and gazing at the fascinating play of light and shadow created by the paper screens. This is also a perfect spot to enjoy cherry blossoms!
